PRACTICE QUESTION REVIEW

Use the worked solution to reconstruct the reasoning — not just record the right answer.

Section / topic

Question / source

1 / Stimulus: which line, graph feature, equation or clue mattered?

2 / Answer choice: my choice, correct choice and supporting evidence

3 / Distractor: why was the tempting alternative wrong?

4 / Error cause: content, graph, reading, calculation, options or timing?

5 / Next practice action

Re-solve before reading the solution. Link the answer back to evidence, classify the mistake and choose the next targeted practice action.
