- In addition to these Chemistry topics, there is also a level of maths required. Expect to see equations, make approximations and apply a level of pattern recognition.
- Start practising your application of this knowledge with GAMSAT®-Style MCQs to build up your ability to apply theories and ideas to individualised problems
- Build up your own MCQ Strategy to help you speed through the section
- Make self-reflections to assess your strengths and weaknesses and make adjustments with future study plans
- Build up the habit to answer MCQs under exam conditions (i.e. put yourself under time pressure)
